

Dan and Phil – I'll look forward to being on the call Friday – I have it as 1pm my time (MST) which would be 11am Alaska time.

Should I contact someone from NatureServe about a contract?

Jim K

**Subject:** Bristol Bay watershed analysis

Hey again, Jim,

Thanks again for your interest in helping with the Bristol Bay watershed analysis. I've cc'd Phil North, who is arranging the project from EPA's end. Hopefully you've had a chance to look over the documents I sent on February 1<sup>st</sup>.

EPA will be holding a teleconference on Friday, February 11 to discuss scenario building for potential mine discharges. We're hoping that you can take part in this discussion. I'm not sure of the exact time, as the invitation says "11:00 AM YST" and I'm not sure what time zone that is; hopefully Phil can clarify. I'll forward the invitation to you in a separate email.

If you'd like to talk with Phil and me in the meantime, please let us know and we can arrange a call.

On the money end, it looks as though the arrangement will be pretty simple. You will be able to bill NatureServe, EPA's contractor, directly for your time.

Hopefully you can participate in Friday's conference call. And please let me know if you need any other info. Thanks a lot.
